

SCANPAL™ EDA52

2 PIN Healthcare Mobile Computer

The Honeywell ScanPal™ EDA52 Healthcare mobile computer is an excellent solution for patients data collection, staff collaboration, supply chain management, nursing workflow management etc.

In an environment where every second counts, the EDA52 Healthcare mobile computer is designed to make nursing and other patient care workflows faster, easier and more productive. It is equipped with the latest Qualcomm Snapdragon octa-core 2.0GHz processor and supports robust wireless connectivity through NFC, Wi-Fi 5, Bluetooth 5.1 and 4G LTE communication.

The 13-megapixel rear camera allows high-resolution image captures while the 5-megapixel front camera and a push-to-talk button enables medical staff to engage in video communication. This makes the mobile computer a great solution for mobile clinic and telehealth applications.

A 4500mAh battery ensures sufficient battery life for an uninterrupted 12-hour shift.*** On top of that, the battery is easily removable and supports quick charge 3.0 to reduce charging time.

To help support infection prevention protocols, the EDA52 Healthcare is made with a healthcare-grade housing that can be disinfected frequently over its entire lifespan.

In an environment where medical errors are a major healthcare concern, the right technology can make all the difference in patient safety. The EDA52 Healthcare incorporates the powerful Honeywell N3601 scan engine which enables accurate and fast reading even of damaged or incomplete barcodes. In addition, a LED aimer allows the scanner to accurately and quickly capture correct barcodes.

A prominent 5.5-inch Gorilla Glass touchscreen interface and ergonomic industrial design help to greatly improve user comfort and experience. The EDA52 Healthcare touchscreen can be operated with wet hands or gloves, thus providing extra convenience for the medical staffs. Its lightweight and slim design means that nurses can easily operate the device with one hand, carry it in pockets, and stay comfortable all day.
